DETAILED ACTION

Information Disclosure Statement

The IDS filed 5/17/06 has been considered and placed of record. An initialed copy is attached herewith.

Specification

The disclosure should be carefully reviewed to ensure that any and all grammatical, idiomatic, and spelling or other minor errors are corrected.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-4 are rejected under 35 U.S.C. 101 because they are directed to a judicial exception without tangible result claimed. Merely measuring and computing would not appear to be sufficient to constitute a tangible result since the outcome of the measuring and computing steps has not been used in a disclosed practical application nor made available in such a manner that its usefulness in a disclosed practical application can be realized.
